3M Health Information Systems is a global provider of medical records coding, terminology, and reimbursement solutions designed to improve clinical and financial performance.

Our innovative software and consulting services focus on solutions for computer-assisted coding, ICD-10, and clinical documentation improvement.

The 3M™ 360™ Encompass System is a powerful computer-assisted coding (CAC) and clinical documentation improvement (CDI) tool—automated intelligence for documentation improvement and coding built on trusted logic and methodologies for linking clinical and financial data. It connects and automates both coding and documentation improvement—two of the most critical issues related to ICD-10.

Let Amphion be your trusted partner for transcription, coding, and core measure abstraction needs. We are passionate about providing expert, reliable, tailored solutions.

- **Coding Services**
  - CCQM™ (Continuous Coding Quality Monitoring)—Ongoing, customizable, coding review that analyzes your coding results and corrects errors in real time.
  - **Coding Services**—Customized, remote coding by experienced and credentialed staff with productivity standards set by record type; our staff is trained in ICD-10

- **Educational/Mentoring Services**
  - ICD-10 Training—Pre- and post-training assessments combine with remote, live, interactive classroom and simulated practice charts for ongoing practice in ICD-10
  - **Train 'n Code**—Strategic mentoring to enhance coding performance customized to coder’s needs based on skill level with daily feedback and next step consultations
  - **Coding webinars for AHIMA/AAPC Credit**—Scheduled throughout the calendar year, webinars are written and presented by experienced and credentialed staff

- **Technology**
  - **Themis Cloud™**—Application Service Provider (ASP) model for secured Internet access is a remote coding solution accessible by client coders and/or Amphion coders
  - **Triton Cloud™**—Transform the spoken word into valuable documents through the use of speech understanding, natural language processing, and discreet data identification

- **Transcription Services**
  - Guaranteed turnaround times for backlog, partial or total outsourcing provided by experienced, U.S.-based medical language specialists in a remote setting with secure, web-based management reporting tools

- **Quality Solutions**
  - Core Measure Abstraction — Accurate, consistent and cost-effective abstraction with an unbiased eye

A service of AHA Central Office, AHA Coding Clinic Advisor is available 24/7 for coding question submission. Available for all coding professionals!

FAQs are available on www.CodingClinicAdvisor.com

With no need for fax or mail submission, AHA Coding Clinic Advisor is your streamlined solution for coding questions.
The resources you trust. The experience you want.

Our new amastore.com site is redesigned and ready for you! Now it’s easier than ever to get all the resources you need for the business of medicine, with great new features like:

- **Streamlined search:** Find what you need faster than ever
- **One-stop checkout:** Purchase everything from CPT® products to your AMA membership more efficiently
- **Simpler navigation:** Easily access the right products for you

### Special savings for AHIMA members

AHIMA members receive free shipping and 20% off the following titles now through July 31, 2013.

- **CPT 2014 Professional** (EP888814)
- **ICD-9-CM 2014 Physician** (OP065114)
- **HCPCS 2014 Codebook** (OP231514)
- **CPT Changes 2014** (OP512914)

Use promo codes **AHIMA20** and **SHIP06** at checkout.
Meet Dr. Jones

Some would say that Dr. Jones is set in his ways. You know Dr. Jones... you probably even have a Dr. Jones of your own. He loves to say things like, “I didn’t go to Med school to spend all day typing in the stupid computer... I went to Med School to treat patients!”

And while no one wants Dr. Jones to get more upset than he already is, your facility needs Structured Data from Dr. Jones for CDI, CAC, MU, HIE and a bunch of other acronyms that Dr. Jones could give a hoot about. Dr. Jones doesn’t care about structured data. Dr. Jones is focused on caring for you, me and all of his other patients. And isn’t that the highest and best use of Dr. Jones’ time?

Of course it is! Which is why BayScribe has developed v6.

v6 does what you need, so the good Dr. Jones doesn’t have to – converts unstructured clinical text into structured, coded, clinical data – the data you need for Meaningful Use, as well as CDI, CAC and all the other acronyms. Perhaps more importantly, v6 has a completely integrated toolset for your CDIS and Coders, so they can work together! Why? Because simply improving the documentation isn’t enough... we need to improve the communication to succeed.

Do yourself and Dr. Jones a favor and contact BayScribe today. We will help you both enjoy your work day a lot more, and do so without spending a small fortune.

Built for you.
Built for Dr. Jones.
Built for healthcare.

THE SPRINT FOR **ICD-10 IS ON!**

The ICD-10 change has the potential to impact organization productivity by as much as 50% or more. Protect YOUR productivity with IOD’s ICD-10 Readiness Program:

**TRAIN STRONG**

with the IOD Learning Institute (ILI)

- Leverage scalable training and assessments for coders, designed by ICD-10 Certified professionals
- Receive customized feedback to coders and managers
- Understand the impacts of ICD-10 for your organization
- Earn CEU credits

**FINISH STRONG**

in the ICD-10 GYM

- Test performance coding your OWN charts and DRGs
- Receive immediate feedback on productivity and accuracy
- Identify areas for retraining
- Eliminate the need for dual coding
- Eliminate time and cost of auditing resources

Tone and tighten your performance with our ICD-10 Readiness Program, and maintain Your HIM Edge® with IOD’s full suite of HIM Solutions, including:

- Coding and Auditing
- EMR Pre-Load Clinical Abstraction
- Release of Information (ROI)
- Document Conversion
- CDI Services
- RAC Services

Strengthen Your HIM Edge® with training, support and services from IOD.

**Call 800.236.3355 or visit www.iodincorporated.com**

This program has been approved for continuing education units (CEUs) for use in fulfilling the continuing education requirements of the American Health Information Management Association (AHIMA).
Jvion started an ICD-10 revolution
by taking a totally different approach that better identifies and prioritizes conversion activities by revenue risk.

And we intend to finish it
through the most comprehensive, integrated ICD-10 conversion software in the market—icdcomplete.

The icdcomplete ICD-10 conversion software suite:
RevCore: financial risk assessment solution that provides encounter-level analytics enabled through the Bonobo Big Data Platform™
RevAssure: assessment and conversion support solution
RevIT: system remediation solution
RevWalk: crosswalk development and dual coding solution
RevTest: 837 test bed and test management solution
RevTrend: robust batch/real time, operational analytic solution

Suffering from Coding Overload?

Call the experienced, credentialed pros at MCS.

As the premier provider of medical record coders in the Northeast—and beyond—Medical Coding Services, Inc. (MCS) is ready right now to provide you with experienced, reliable, accurate and fully credentialed (RHIA, RHIT, CCS and CCS-P) coders, onsite or remote:

We provide experienced, credentialed coding professionals for onsite and remote coding solutions. MCS coders are experts in all areas of inpatient and outpatient coding and are available for temporary, permanent and on-call services. All coders are experienced, credentialed professionals – RHIA, RHIT, CCS and CCS-P.

**Backlog Coding**
- Fast, reliable assistance with your ICD-9-CM and/or CPT coding backlogs.
- Full-time, part-time, on-call and weekends.

**Remote Coding**
- We’ll help establish a safe, secure connection for coding your records remotely.
- Eliminate travel expenses, save money with remote coding.
- During transition to EHR/EMR
- Anytime

**Emergency Room Coding**
- E/D and E/M coding and/or evaluation of hospital ER records.
- Onsite, offshore or online.

**DRG/ICD-9-CM Coding Reviews**
- Performed onsite and offsite based on your department’s needs.
- Work is done on an hourly basis to prevent conflict of interest.

**Compliance Audits**
- Comprehensive audits for all our coding functions.
- Up-to-date on HIPAA and Medicare regulations.

**Onsite Training and Education**
- Experienced coding educators
- At your facility so no loss of valuable work time.

**ICD-10 Transition**
- Keeping your ICD-9 coding up to date
- Minimizing productivity loss
- Giving you the best ICD-10 coders

Capture the whole story at nuance.com/for-healthcare
The transition to ICD–10 represents an opportunity to make a positive impact on the quality of care, as well as significantly improve your organization’s operating and financial performance over the long term. Optum has a proven track record of helping thousands of hospitals capture accurate revenue and improve processes, workflows and infrastructures, paving the way for ICD–10 and beyond.

From planning, resourcing, implementing, and training to managed services and end-state measurement and analytics, our comprehensive ICD–10 solutions can be tailored to meet the specific needs of your organization—regardless of size. Our solution addresses the conversion process in a three-phased approach:

<table>
<thead>
<tr>
<th>Phase 1: Assessment</th>
<th>Phase 2: Adoption</th>
<th>Phase 3: Analysis</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identification of business impact areas</td>
<td>ICD–10 education program: provider, coder, revenue cycle &amp; IT</td>
<td>End-state measurement and documentation</td>
</tr>
<tr>
<td>ICD–10 impact assessment kickoff and educational session with key stakeholders</td>
<td>System remediation support (technical &amp; coordination)</td>
<td>Implement review and improve process</td>
</tr>
<tr>

This methodology is designed to ensure organizations not only have the tools, but the preparation, process, and ongoing feedback necessary to ensure long-term success.

No matter where your organization is in the ICD–10 preparation process, Optum can be your comprehensive transition partner, improving your organizational performance not only to meet the ICD–10 deadline, but to become a more effective organization long-term.

Optum’s advanced Enterprise Computer-Assisted Coding Platform is powered by LifeCode®, our patented natural language processing (NLP) technology. Its CAC Workflow, Coding and Reimbursement, and Clinical Documentation Improvement Modules seamlessly integrate encoder tools, workflow automation and CDI technology to further streamline your operation, improve compliance, preserve revenue and ease the transition to the new code set.

For more information:
Visit:  www.optum.com/ICD-10
Email:  insight@optum.com

See our display ad on the back cover.
Meet a CAC vendor that has been processing ICD-10 since last century

The PLATOCODE® company has been processing ICD-10 inpatient charts since the 1990s.

We don’t rely on mapping tables, so ICD-10-CM for the US is just as good. PCS isn’t a problem either since it’s just a human-readable version of our patented binary pattern.

Generating PCS occurs in the blink of an eye and immediately is as accurate as the official index—same as any other indexed code set, even research variants you created yourself.

So if you want a CAC vendor that has already experienced an ICD-10 transition AND can help free up the hours coders need to focus on ICD-10 and other professional needs, give us a call today.

Or to learn more about PLATOCODE CAC, visit our website at www.platocode.com
Given the right tools...people can do anything.

VISION ➤ coding & compliance | reimbursement
provider education | litigation support
strategic financial planning

www.pyapc.com
The countdown to ICD-10 conversion is fast approaching and it’s estimated to impact HIM departments post implementation with:

- 50% decline in productivity¹
- 100-200% increase in denial rates and accounts²
- 20-40% increase in receivable days²

Together that adds up to a lot of missed revenue and reimbursement dollars.

If you don’t act on ICD-10 soon, it will cost you later!

SourceHOV | LexiCode can minimize the expense of lost productivity and quality:

- **Documentation Integrity Programs** help transition providers, non-physician practitioners, coders and documentation improvement teams
- **ICD-10 Training Programs** are AHIMA accredited and available on-site or off-site
- **Staffing Support** during training, to address backlog and augment capabilities, onsite or remotely
- **Operational Reviews and Audits** to address quality, policy, procedures, and workflow bottlenecks

Let SourceHOV | LexiCode help you get ahead of the ICD-10 clock.
ICD-10 Training
We’re here to help!

We’ve done the work for you – with different eLearning courses and book packages to choose from, there is a training program for you regardless of where you are in your ICD-10 preparation.
